

Dirty Kid obstacle course Training and Race

Thank you for registering for the most fun workout in the world!
Here's some details on the race.

Race

- Saturday, Oct. 12. Race is scheduled between 10am-12n. Racers will start in “waves” of 4-10 runners. Race time slots will be announced on Oct. 10 and placed on the web site: <https://sacadventureplay.org/calendar-programs/programs-events/>. We cannot guarantee the accuracy of any times slots given over the phone. Waves can have different age groupings.
- Your training fee includes the race and t-shirt.
- All racers must race within their ability. Obstacles may be skipped and that’s okay. Skipping an obstacle will, however, eliminate racer from any awards. Please report any skipped obstacles when your racer finishes. Obstacles and distance can vary from year to year, and it’s traditional to have “surprise” or non-advertised obstacles.
- Awards. Top 3 ages: 6-8, 9-12 and 13-15. Placement computed AFTER last racer. Awards ceremony approximate 10 minutes after last racer.
- Bib numbers will be worn and used for the timing. Multiple waves of racers can be on the course at the same time. Passing is part of obstacle course racing.
- Clean-up station will be provided.
- We will have water, but strongly encourage all to bring their own in a reusable bottle. Snack will be provided to racers.
- Clothing. Closed toe shoes required. Tips: Tight fitting shoes (the mud pit monster loves those shoes 😊). The less clothes the better as mud and water are heavy. Plan on a roll in the grass. You may wear your Dirty Kid Obstacle Race shirt.
- Start time adjustments. We will try and accommodate, but no guarantees.
- The Adventure Playground will be open during the race (excluding any parts reserved for the race) and the Community Fun Day on the entire Maple campus is 12n-4pm <https://sacadventureplay.org/community-fun-day/>
- This is a free event focused on “play” hosted by Sacramento Adventure Playground, 916 Ink, La Familia, Crocker Art Museum, Powerhouse Science Center and ARTners.
